DETAILED ACTION

Allowable Subject Matter

1. Claims 21-46 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest a method for constructing a specimen enclosure assembly and a specimen enclosure assembly for use in an electron microscope and having: a specimen enclosure dish having an aperture and defining an enclosed specimen placement volume; an electron beam permeable, fluid impermeable, cover sealing; and a pressure controller communicating with said enclosed specimen placement volume, said pressure controller being configured for maintaining said enclosed specimen placement volume at a pressure which exceeds a vapor pressure of a sample in said specimen placement volume and is greater than a pressure of a volume outside said specimen enclosure assembly, wherein a pressure differential across said cover does not exceed a threshold level at which rupture of said cover would occur in combination with the remaining elements of claims 21 and 34. All remaining claims are allowable because of their dependencies.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
